

How well do you think BEHMHT delivers on equalities for your community?

Barnet, Enfield and Haringey Mental Health Trust (BEHMHT) want local service users, carers and community organisations to help 'grade' how well it delivers equalities. This workshop, organised by Healthwatch Haringey, will give you the opportunity to check how well BEHMHT meet equality requirements, and award them a grade. You will also review their equality objectives to help improve the services they provide to local communities.
